

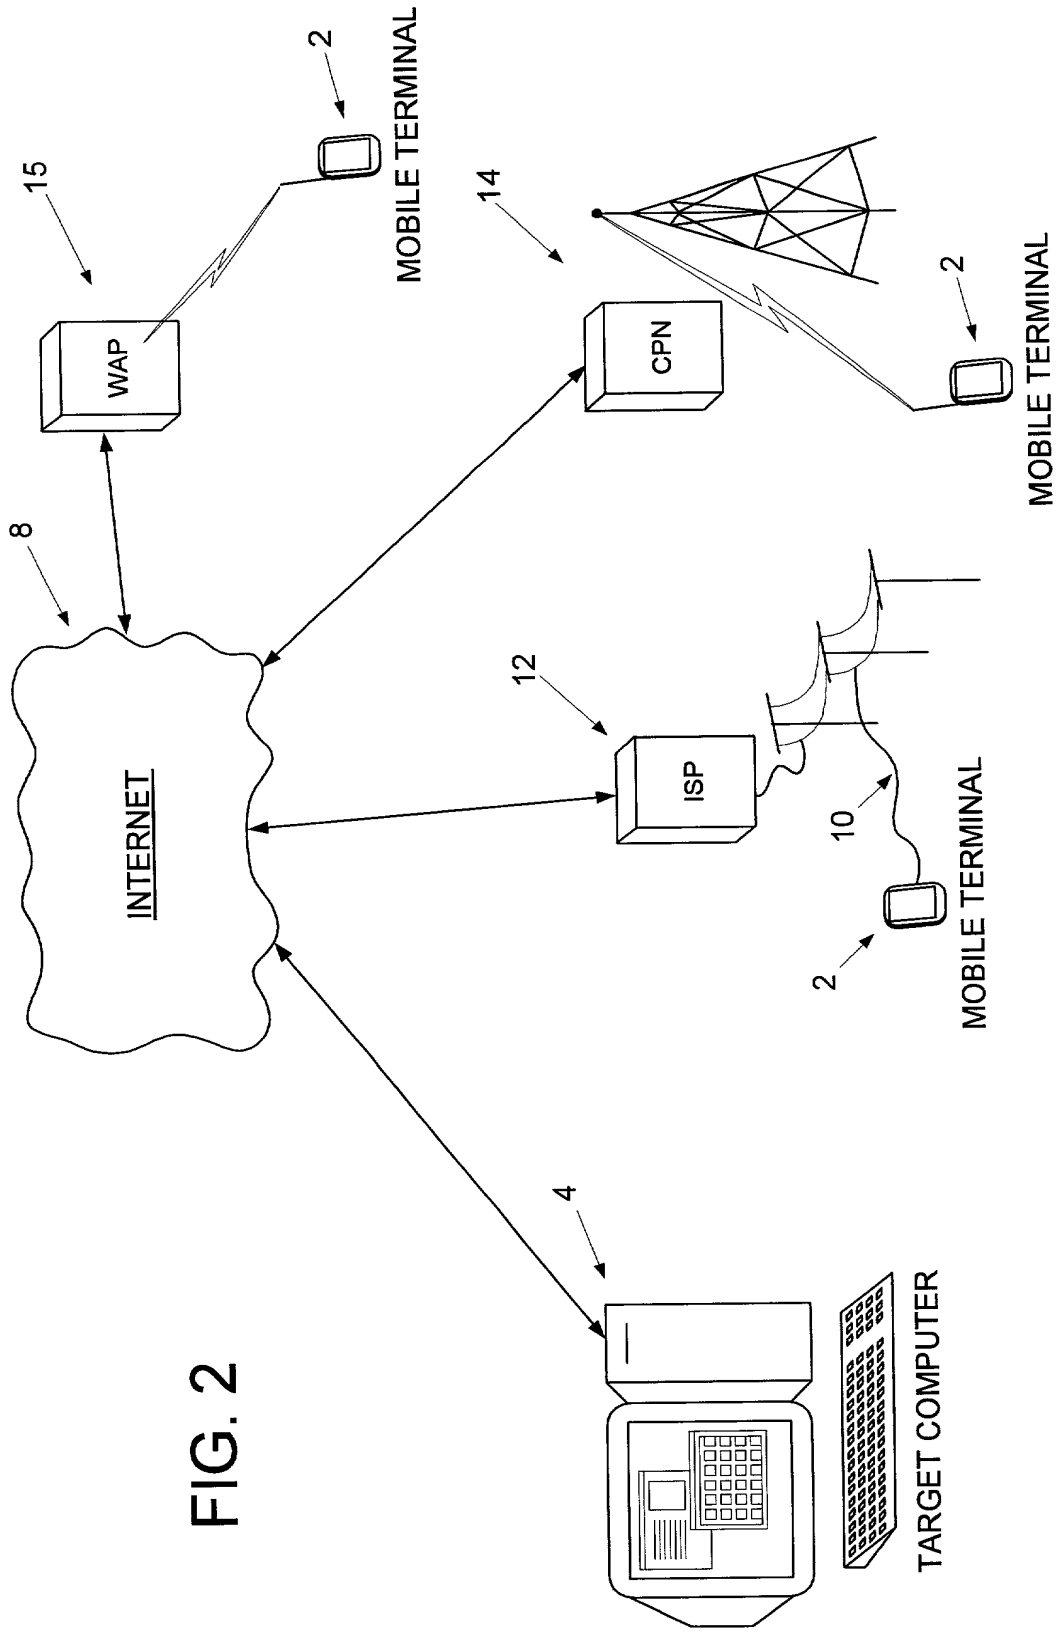

FIG. 1
(Prior Art)

FIG. 2

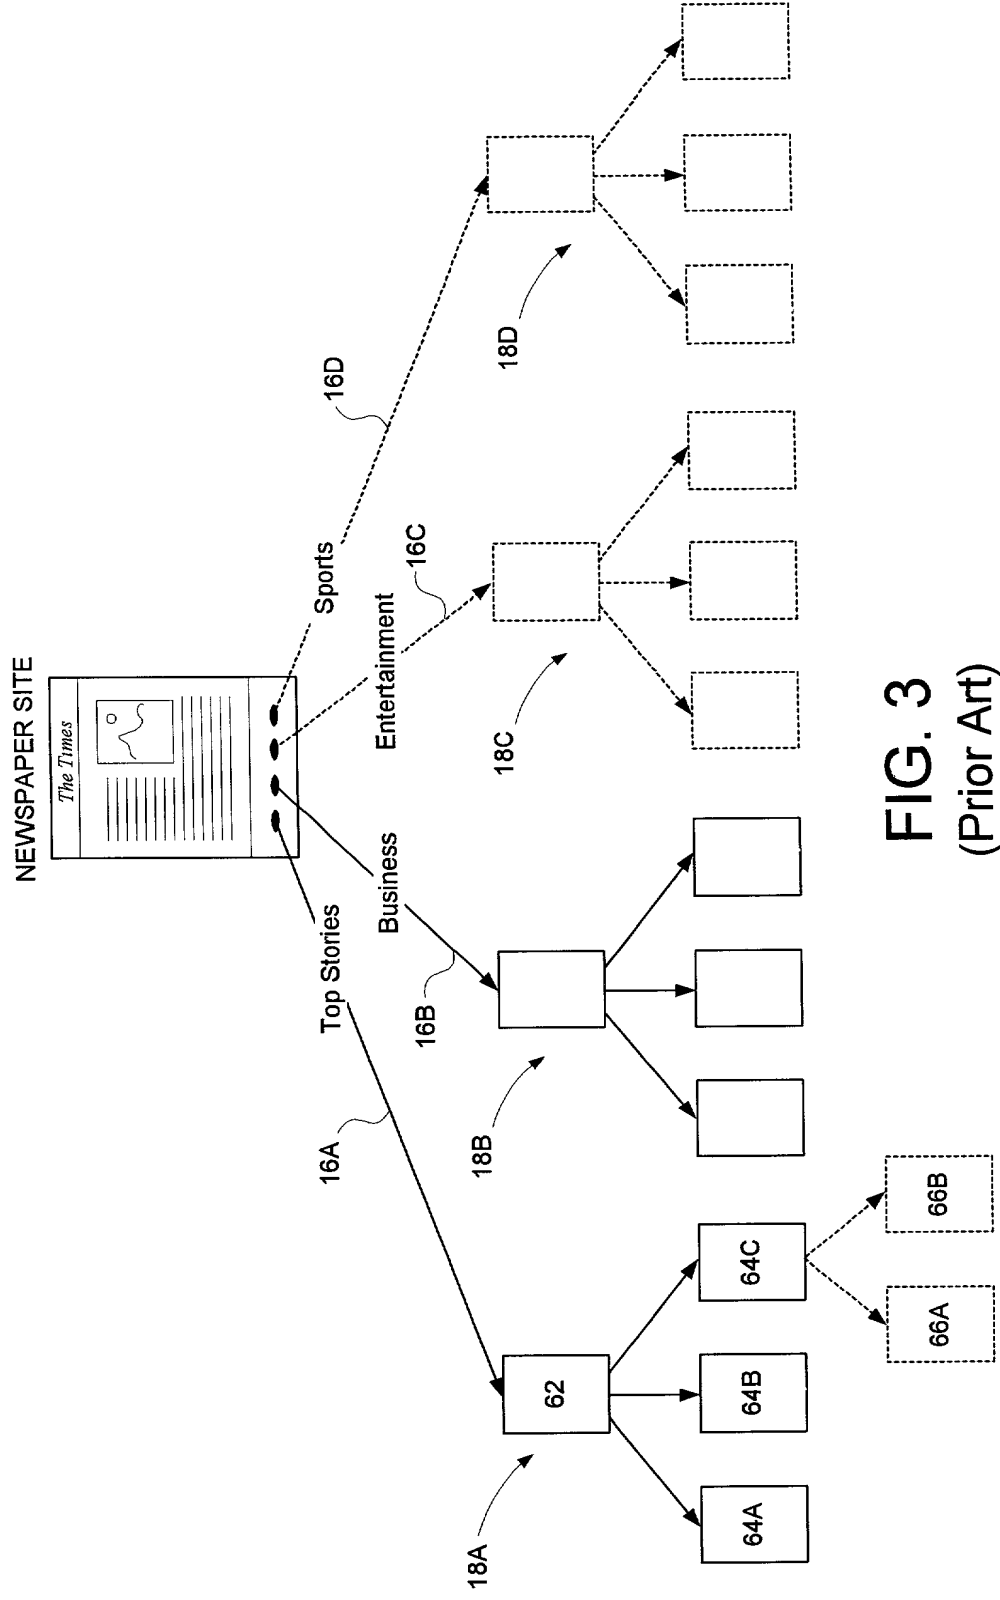

FIG. 4 is a schematic diagram of a prior art device. The device is a handheld electronic device, such as a PDA or a mobile phone, with a screen and a keypad. The screen displays a web browser interface showing the homepage of The Times. The interface includes a title bar, a address bar, and a main content area. The main content area displays the title "The Times" and four categories of news: "Top Stories", "Business", "Entertainment", and "Sports". Each category is represented by a text label and a corresponding icon. The labels are: "Top Stories" (top stories of the day), "Business" (press releases and stocks), "Entertainment" (Hollywood gossip), and "Sports" (scores and highlights). The icons are: a magnifying glass for "Top Stories", a briefcase for "Business", a film strip for "Entertainment", and a football for "Sports". The keypad is located below the screen and consists of a grid of buttons. The device is shown in a vertical orientation.

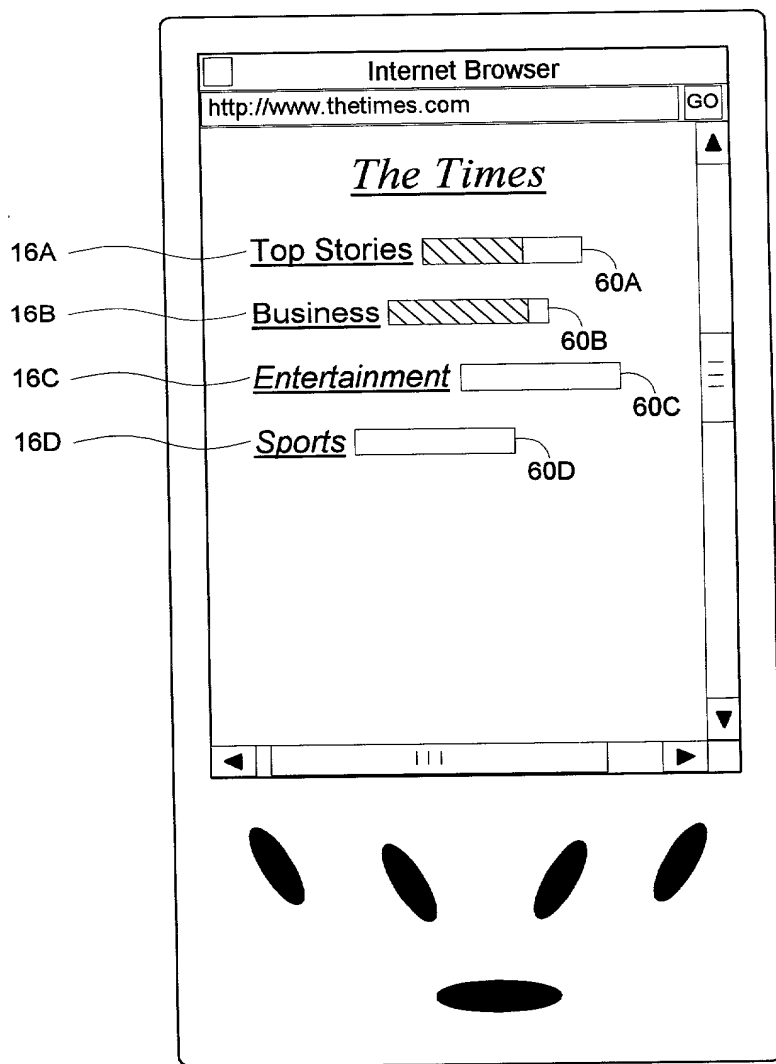

FIG. 5B

FIG. 6 is a schematic diagram of a handheld device 100 displaying a web browser interface. The device 100 includes a display screen 70 and a set of four touch-sensitive buttons 72. The browser interface shows the address bar with the URL http://www.thetimes.com and a GO button. The main content area displays the title Home Page and four links: The Times, Stock Watch, Interest-Rates, and Ski Today. Each link is accompanied by a progress bar and a status indicator (m/f, n/a, or s/t). The bottom status bar shows Sync Cache and Memory usage.
